New Clinic Now open!

Our brand new clinic is now open, only a few blocks away from before but bigger and better than ever, including our new specialist skin shop!

Prescription Skin Shop

We have carefully selected the best of all the product ranges we sell, based on clients feedback and measured results, to offer you the top performing skin products around. **MD Formulations** range feature 12% strength glycolic creams and cleansers compared to around 3% strength in high street products to give quicker and more intense results. Agera range uses the most advanced nano technology, peptides in the smallest particle size to really sink into the skin for great results.

Call in any time to browse or ask for information on your next visit.

IPL Treatments

Now is the perfect time to start IPL treatments for both skin rejuvenation, pigmentation and hair removal as tans are fading and it leaves plenty of time to complete a treatment schedule before the sun appears next spring.

Did You Know?...

20 seconds of light facial massage when applying your cleansing cream will help boost a dull complexion by encouraging deep-down dirt to rise to the surface.

Problem Of The Month – Droopy mouth corners

It sounds strange but many ladies as they get older start to notice the corners of their mouth start to droop downwards and often accompanied by a hollow area just under each corner which creates a shadow in overhead light. This is caused by a natural loss of volume in both the cheek and mouth area as we get older and particularly after menopause. It gives an “unhappy” look to the face as the mouth turns downwards.

How can it be treated?

It is very quickly and easily corrected by a dermal filler such as Restylane. Filler restores volume under the mouth corner and to the very edge of the mouth, turning the mouth corners back up and often adding width back to the mouth that has been lost to give a much more youthful, “happy” look. Costs approximately **£275**, depending on amount of filler required.

Normally £24, this month only £19 for either the cream or the coverstick or £30 for both.
